

**Autobahn CanStruction**

This term our Autobahn students have been preparing for the Canstruction competition where they build sculptures using cans of food that are then donated to the Foodbank. This challenge has involved studies in engineering and design and will culminate in a showcase at school by our junior students in Year 1 and 2 at the end of this week and our Year 3 and 4 students next week.

Year 5/6 Autobahn students will then compete in the 'build day' at Food Works on October 14th.
